Work Experience

1980- 2016 | Project Facilitator

Sloan's Signs | Owner | <http://sloanssigns.com> | Current

Sign Production & Installation: Have 39 years of building and installing signs in Salem, Oregon. Master's Degree in Business Management and Information Systems. Am very accustomed to working with the public and the permitting process. Sloan's Signs is in Salem Oregon and am very aware of the geography and often use a GPS to travel to unfamiliar locations. Have extensive experience traveling to install signs in tandem with working with multiple customers. Products include: Electrical sign faces, window signs, banners, wood and aluminum signs, sandblasted signs, silk screen printing, and more.

ASP.NET MVC Website Development: ASP.NET MVC Framework, Visual Studio, Entity Framework, SQL Server, Authorization, Validations, DNS, Google Apps Mail, Face book, Google+, Adobe Fireworks, CorelDraw, Twitter Bootstrap, and Windows Azure.

- <https://plus.google.com/113737023070380584531/about>

Business Administration (Professional): Friendly, flexible, and adaptable working in teams or independently. Excellent time management and bookkeeping skills. Experienced in CRM, and cost benefit analysis.

Tools:

- Microsoft Office Software
- SAS Probability Software (Academic)
- Adobe Fireworks
- CorelDraw
- Presentations
- Sales
- Bookkeeping
- MS SQL Database Admin.

Education

Western Oregon University (2013)
Masters: Management and Info. Systems.
Quarter Credits: BA 70, CS 50 (GPA 3.87)

Work Experience

ITT Technical Institute | Networking Instructor | <http://www2.itt-tech.edu/itt-tech/> | 2011 – 2012 Internship

As a graduate student, taught four classes as the only Computer Networking Instructor at ITT Technical Institute. The classes and their content were as follows:

- Introduction to Computers
 - Computer History: The history of hardware, software, and the internet.
 - Hardware: What is hardware and its individual components including peripherals. I routinely supervised students breaking down and setting up systems for class group exercises.
 - Software: Drivers and operating systems.
- Introduction to Networking: Topics included terminology and matching networks with a variety of business environments. Terminology included tools, cables, and connectors.
- Networking 1 & 2: The courses examined the concepts of upgrading and maintaining computer network systems in LAN/WAN/MAN environments. Students learned terminology, and protocols, in addition to working in teams to create virtual networks on external hard drives using Windows Server 2008 R2 (Active Directory).

Direct Supervisor: Dr. Arthur Jackson, Esquire - Ph: 425.359.9655, Email: ajackon@aol.com

Salem Keizer Public School District | Licensed Substitute Teacher | <http://www.salemkeizer.org/> | Current

Have worked three years for the District where I am currently a Licensed Restricted Substitute Teacher. Areas of specialty are the following:

- Managing the schedule of large groups of students. Class sizes average 20 students from 3 – 12 grades levels.
- Life Skills (Handicapped)
- Computer related hardware and software including digital graphic design.
- Physical fitness.

Salem Health | Volunteer Information Services | <http://www.salemhealth.org/> | Just dropped to teach

Six month plan before moving to full time between teaching and contracting. Tasks performed were as follows:

- Work with customers and patients.
- Desktop setup and maintenance.
 - SIMM CARTS
 - Wyse Devices
 - Desktops
- Computer consolidation.
 - Collect device identification for inventory. Entered and collaborated very well with patients.
